

Standard Electric Supply Co. and ABB present

# WIRING AND GROUNDING

**WEBINAR**

WHEN:

**Tuesday, November 19**

9:00AM - 9:45AM

**CLICK TO REGISTER**

Learn wiring best practices as they relate to VFDs and why proper wiring and cabling techniques are necessary to ensure a trouble-free installation. You will learn:

- Why VFD rated cable is always the best choice
- Types of cables for the control and power of wires
- Proper termination practices for VFDs
- NFPA 79 (2018) VFD cable considerations
