

Configuring a Drive and Controlling It With a PLC is Easier Than You Think!

This 30 minute webinar will cover commissioning and control of a G120 VFD with an S7-1500 PLC via PROFINET

Previous knowledge of PLCs and drives a plus!

- a. Quick Commission of the G120 drive with the motor nameplate information.
- b. Selecting the preconfigured Siemens Telegram 352.
- c. Retrieving, Opening, and using the Telegram 352 control block.
- d. Connecting the block to the drive.
- e. Verify Functionality.
