

Solve Multiple Protocol Conversion and Gateway Needs With One Platform

This 30 minute webinar will cover how to solve multiple protocol conversion and gateway needs with one platform.

Attendees will learn the benefits of:

- a. An intermediate PLC with appropriate network cards
- b. A dedicated gateway such as ANYBUS or Hilscher
- c. Redlion DataStation/HMI's/Modular Controllers

This Tech Talk will also have a Crimson software protocol conversion to multiple PLC's demonstration!
