

# What is Active Front End Technology and How Does it Potentially Help My Design?

This 30 minute webinar will review how active front-end technology can potentially help your design and the benefits that come with it.

## Topics that will be discussed:

- IEEE 519-2014 architecture
- How it's basically a auto harmonic adjuster
- Typical THDi
- Braking energy feedback for certain applications

## What is Active Front Technology and How Does it Potentially Help My Design? - Tech Talks with Standard Electric!
