

# ENS

A **HAVIS** Company

## Convertible POS Self-Checkout Lanes

# Where You'll Find Us

# Our Technology Partners

# The Market Today

**Market Trend - Businesses are moving to Convertible POS to maximize store footprint and existing cash wraps while minimizing dependence on store employees for customer checkout**

- ✓ Legacy checkout lanes in place today - only useful when a store employee available.
- ✓ How do businesses take their existing POS lanes and quickly convert them to self-checkout lanes when store conditions (too few employees vs. too many customers) dictate?
- ✓ Off the shelf SCO solutions are a challenge to fit into existing checkout lanes and fixtures due to height/depth and layout of counters.

# How ENS Can Help

ENS will deliver a Convertible POS Self-Checkout solution based on your existing Store Fixtures and POS/Payment Technology

- ✓ ENS has core solutions available today or we can create a custom solution for your specific business
- ✓ ADA compliance can be part of any ENS designed Convertible POS Self-Checkout solution as required by our customers
- ✓ ENS Convertible POS solutions can change from manned to self-checkout in rapid fashion
- ✓ Convertible POS Self-Checkout helps solve the challenge of being employee dependent for all POS transactions

# Convertible POS Self-Checkout Utilizing Legacy Cashwrap

- ✓ Pole mounting provides an out of box solution for creating convertible POS lanes
- ✓ Utilize our TechTower or MM-1000 mounting solution to create your custom configuration that fits your needs
- ✓ Easily move your POS between employee or customer utilization via rotation or an extension arm
- ✓ Tilt and Position your monitor to reduce glare or meet ADA compliance

# Convertible POS Made Easy

367-5672

- ✓ VESA compliant all-in-one touchscreens easily rotates on DM-1000 to convert from manned checkout to SCO
- ✓ ENS solution is budget friendly by utilizing existing store technology and fixtures
- ✓ Tilt screen for optimum user experience and easily rotate to suit your requirements
- ✓ Excellent cable management within the stand to hide and protect cables

# Rotating Convertible POS

367-5035

- ✓ VESA compliant monitors on rotating ENS base for ease of converting from manned checkout to SCO
- ✓ Solution utilizes existing customer POS/Payment technology and existing store fixtures
- ✓ Payment is on the countertop but could be added to the kiosk with a simple design addition

# Custom Convertible POS Solutions
