6 RIVER SYSTEMS

LEADING THE WAY
TO FASTER FULFILLMENT

for multi-channel commerce, retail, B2B and 3PL companies worldwide

Your fulfillment challenge

Fulfillment operators need to scale quickly and cost-effectively to meet growing demand—yet finding and retaining quality warehouse personnel is getting more difficult and seasonal hires take time to train; especially if you're trying to leverage automation technologies.

Our fulfillment solution

6 River Systems (6RS) can double or triple the productivity of your warehouse associates—at half the cost of traditional automation and without requiring any new infrastructure or changing your warehouse layout.

2-3X PICK RATES

50% REDUCTION IN WALKING

15 MINUTES NEW HIRE TRAINING

12-18 MONTH ROI

| Give your team the right tools | Assign work intelligently | Make the job better | Integrate and expand seamlessly | Make data-informed decisions |

6RS' solution manages the entire fulfillment workflow from putaway, to picking, sorting and packing.

THE 6 RIVER SYSTEMS ADVANTAGE

**EMPOWERING ASSOCIATES & OPERATORS**

Give Your Team the Right Tools

- Improve putaway, picking, sortation, packing and shipping
- Interleave replenishment and other tasks to improve utilization of people and equipment across the facility for additional efficiency
- Go live in 2-4 weeks, achieve 2-3x increase in pick rates and realize full payback in 12-18 months

Assign Work Intelligently

- Smart allocation rules assign work from your order pool to optimize picking efficiency
- 6RS supports singles, batch, discrete, zone and cluster picking - simultaneously
- Associates are guided through a cart-build process at induction; totes can also be automatically loaded

Make the Job Better

- Accelerate training time and empower your workforce to succeed quickly
- Safer than manual, heavy carts that lead to fatigue and injuries
- Reduce walking by up to 50%

Integrate & Expand Seamlessly

- Integrate into any WMS — COTS, custom or cloud
- Scales and flexes to meet seasonality and peak demands, without costly or disruptive infrastructure changes
- Gain new capabilities through integration with peripheral devices and automation tools, with minimal disruption
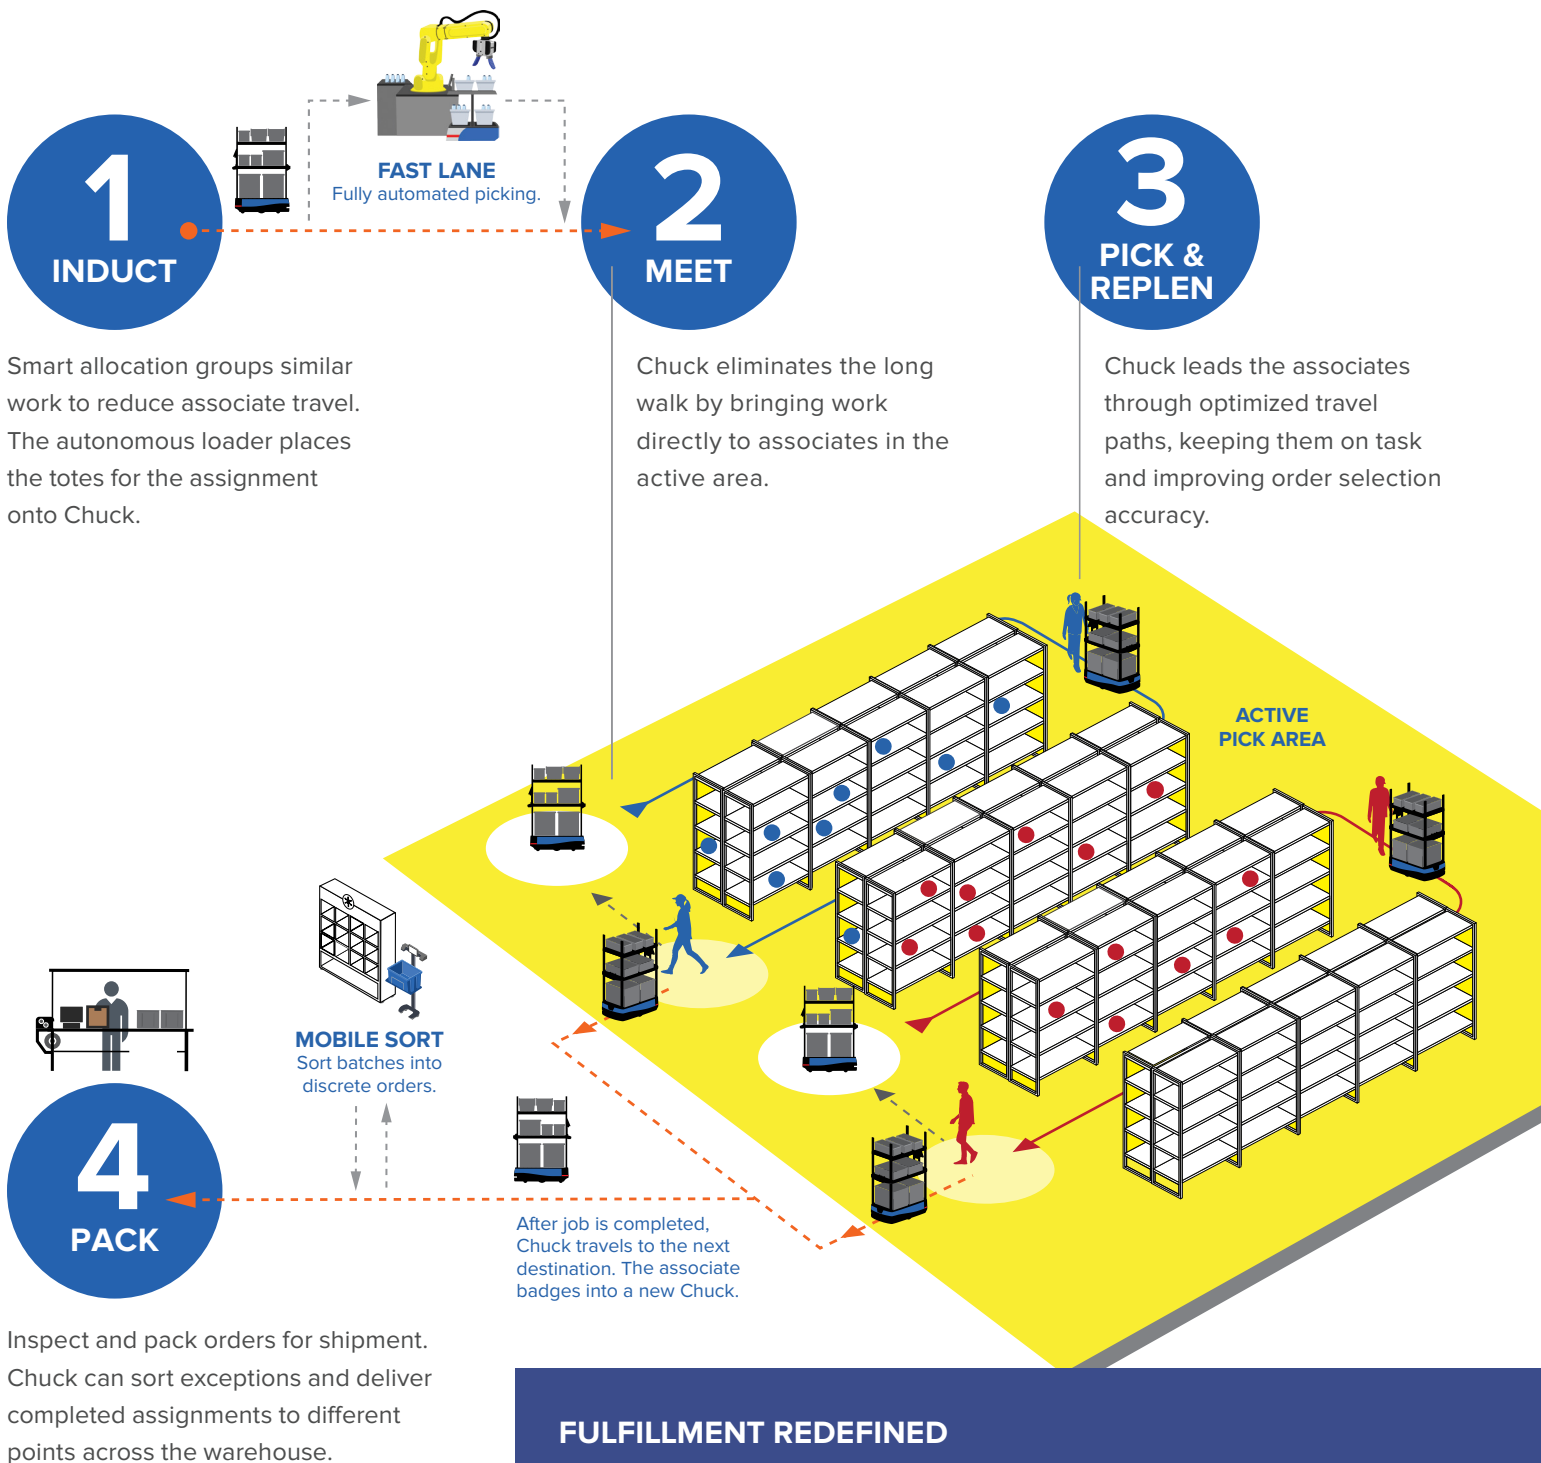

Make Data-Informed Decisions

- Real-time intelligence and operations dashboards help identify trends and deliver proactive notifications so you can address problems before they occur
- AI and machine learning enable the 6RS solution to deliver even more value over time
- Continuous software updates enable new functionality without any hardware or infrastructure changes

WALL-TO-WALL EFFICIENCY

FROM INBOUND THROUGH OUTBOUND

1 INDUCT

Smart allocation groups similar work to reduce associate travel. The autonomous loader places the totes for the assignment onto Chuck.

FAST LANE
Fully automated picking.

2 MEET

Chuck eliminates the long walk by bringing work directly to associates in the active area.

3 PICK & REPLEN

Chuck leads the associates through optimized travel paths, keeping them on task and improving order selection accuracy.

ACTIVE PICK AREA

MOBILE SORT
Sort batches into discrete orders.

4 PACK

Inspect and pack orders for shipment. Chuck can sort exceptions and deliver completed assignments to different points across the warehouse.

After job is completed, Chuck travels to the next destination. The associate badges into a new Chuck.

FULFILLMENT REDEFINED

The 6 River Systems solution expands beyond collaborative robots to increase efficiency across your entire operation. Within weeks, you can:

> Increase productivity in picking, packing, sorting and replenishment

> Gain new, actionable insights through real-time data

> Realize continuous improvement without hardware or infrastructure changes
