

DIGITALIZATION CONNECTS INDUSTRIAL WORKFORCES

Digitalization is not just about introducing automation and digital technologies. It's about transforming industrial activities into simple and efficient processes, increasing employee productivity, reducing overheads and improving compliance and security. It's about connecting industrial workforces, improving individual performance and empowering collaborative teamwork.

CONNECTED WORKFORCES TRANSFORM THE WAY WORK IS PERFORMED AND DECISIONS ARE MADE

1

Connected Workers

In connected workforces, WORKERS know what to do, when to do it, and how to do it

BEFORE

- Unknown priorities
- Searching for data
- Writing reports
- Lack of communication
- Waiting for approval
- Unpersonalized

AFTER

- + All work on mobile device
- + All data in 1 location
- + Paperless operations
- + Interaction with peers
- + Digital checklists/approvals
- + Personalized displays

More effective workforce

Less downtime

Increased productivity

Better quality & safety

Accountability & traceability

2

Connected Managers

In connected workforces, MANAGERS can make decisions and allocate resources with confidence

BEFORE

- Unreliable/inaccurate data
- Scheduling challenges
- Inefficient shift handovers
- Inaccurate wall charts
- Manual reports
- Long approval processes
- Multiple location challenges

AFTER

- + Real-time, accurate data
- + Traceability & accountability
- + Easy shift handovers
- + Interactive digital checklists
- + Automatic reports
- + Real-time monitoring
- + Synchronized locations

Real-time visibility

Situational awareness

Manpower/tool coordination

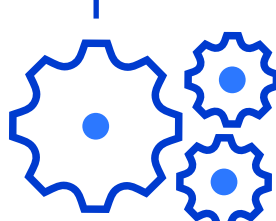

Better change management

Fast resolution of issues

3

Process Optimization

In connected workforces, ORGANIZATIONS can drive continuous process improvement & strengthen operational excellence

BEFORE

- Lack of knowledge sharing
- Unreliable data
- Erratic data collection
- Loss of tribal knowledge
- Lack of standardization
- Policy estimations
- No tracking of KPIs
- Contractor challenges

AFTER

- + Easy sharing of knowledge
- + Capture of performance data
- + Global best practices
- + Change management support
- + Automatic reports
- + Data-based benchmarks
- + KPI measurement/analysis
- + Contractor management

Meet timetables & budgets

Evaluate work performance

Identify trends & work patterns

Learn from experience

Establish benchmarks

**MOBIDEO'S DIGITALIZATION OFFERING IS
BASED ON CONNECTING INDUSTRIAL
WORKFORCES FOR THE BENEFIT OF ALL
STAKEHOLDERS**
