2018

What this is NOT about

- Getting into infrastructure
- Becoming a great data engineer
- Becoming a full-stack data scientist
- Learning to play violin

1 of 74

Full-stack data scientist

- Cover the whole project lifecycle (follow CRISP-DM)
- Invest in software engineering
- It's not just about technical skills
- Have a T-shaped profile
- Focus on what matters

Focus on what matters??? How?

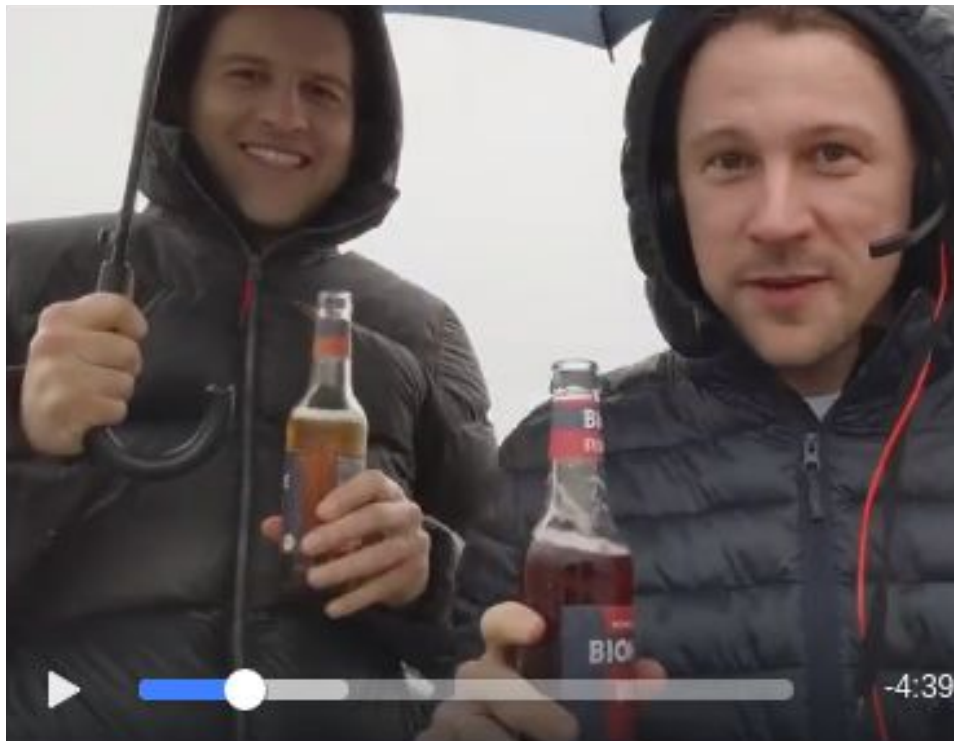

- Fail multiple projects
- Work at a startup
- Learn rapid prototyping

Hack #1:
Be friends with your PM

What I learned from my PMs

- Prioritization
- Talking to other teams
- Planning
- Learning more about the users
- Marketing myself

Hack #2:
Be visible

How can I be visible?

- Demos! Show even small things
- Make frontend for your models

images_mix/20093_3.jpg

Not watch

How can I be visible?

- Demos! Show even small things
- Make frontend for your models
- Speak at internal events
- Write to speak

Hack #3:

Be a part of the community

Vingrad

Do you look for experience? Do you like an idea of open source? Do you enjoy working for fun? This is the right place for ya! Anyone can join our team, we need people of different skills: Java/Scala geeks, test engineers, business analysts, project managers, DevOps, architects, designers, UI developers, security experts.. Whew! Did we forget anyone? We would be happy to teach you and to learn from you!
