

Spackle wanted to create and manage orders in an efficient manner for service work and small construction projects across the real estate and general contracting industries.

We helped Spackle by building an innovative App that increased efficiency for their work and automated processes which enabled them to empower customers, streamline workflow, and complete projects faster.

Tarmac designs, builds, scales, and supports exceptional software. We are technology agnostic and leverage a wide array of modern languages like Ruby, Javascript, Python, and Java. We help our clients deliver higher quality software quicker by relying on our proven software development approach, the "Tarmac 10".

01

The Challenge

Spackle needed to create and manage work orders in an efficient manner for service work and small construction projects. The company looking for a technological solution to increase efficiency for small projects and service work across the real estate and general contracting industries.

02

The Solution

We built a software app for Spackle to help their customers monitor task-level and the status of full work orders, 24/7. Our app streamlined workflow and empowered customers to use automation to gain additional insight on projects in order to complete projects faster.

03

Tech Stack

Ruby, Ruby on Rails, iOS, Android

04

The Results

With their new apps, Spackle builds better alignment between clients and workflow to complete projects on time and on budget.

“

Spackle is a highly intuitive software App that allows you 24/7 access to create and manage work orders for service work & small construction projects within your commercial real estate space. Spackle is also a licensed General Contractor with both self-performing and subcontracted labor. Consider us your premier General Contractor for small projects & service work.

About Spackle

Spackle is a highly intuitive software App that allows 24/7 access to create and manage work orders for service work & small construction projects within the commercial real estate space.
