

LIGHTWORK TIME

Software as a Service (SaaS)

LightWork Time is a time and attendance solution designed for companies with single or multiple locations, and easily accommodates remote employees. It has the versatility to allow employees and managers to use their own mobile devices to record and manage time. Traditionally, a customer purchases the software and assumes responsibility for its implementation and ongoing management. LightWork Time Software as a Service (SaaS) is a subscription-based, hosted time and attendance service. This cost-effective alternative presents significant advantages to businesses. All you need is a web browser. No software is installed on users' computers, and there is no need to worry about upgrades of the software or backups of data. LightWork SaaS is easier, faster, and more cost effective.

CUSTOMER BENEFITS

LightWork manages ongoing performance, server tuning, security and the stability of the LightWork SaaS. We offer the highest level of quality and service built on the best possible hardware and software infrastructure to minimize the risk of service interruptions. Your annual fee is based on the number of employees and offers flexibility as your organization's needs change.

LESS IT MANAGEMENT REDUCES UP-FRONT COSTS AND REDUCES MANAGEMENT EFFORT

- Get excellent reliability and performance
- Deployment is minimal and fast
- No additional hardware required
- Avoid building and maintaining a redundant network and hardware infrastructure necessary to operate an on-premise software application
- Avoid ongoing management of service, upgrades, backups and support of hardware and infrastructure

SUBSCRIPTION-BASED—A PRICING MODEL THAT MAKES SENSE

- Saves money—No need to pay for excess capacity. Lower total cost of ownership and quicker time-to-value.
- Supports pilot rollout—The scalability of LightWork SaaS enables you to test its functionality, reliability and performance in limited deployments. This allows your team to expand its enterprise-level adoption incrementally.
- Enjoy enterprise-class reliability and performance without buying a perpetual license, hardware and ongoing IT maintenance.

ALWAYS UP TO DATE

- Never worry about outdated software—Benefit from free and automatic software upgrades that ensure that your subscribed service has the latest features.
- Enjoy all the latest productivity benefits.

MAXIMUM SECURITY

- ISO 27001 Certified
- SAS70 Type II
- 24/7 video surveillance and security personnel
- All connections are secured with 128-bit SSL encryption to ensure data is protected
- Layers of firewall and Intrusion Prevention System (IPS) are deployed to control access and protect our services from exploitation
