

Hands-free financial spreading of structured and unstructured documents

Manual financial analysis traps valuable information within documents, databases, and workflow tools. Our financial insight engine enables handfree processing of scanned, skewed, and grainy tax returns in **seconds** with >99% accuracy.

Any document type

- Scanned PDFs
- Digital PDFs
- Images
- Excel files

Supported tax returns

- 1040
- Schedule C
- 1065
- 8825
- 1120
- 1120-S

Unstructured documents

Fincura also supports the capture and spreading of unstructured income statements, balance sheets and footnotes

World's fastest spread

30 seconds

Backed by an industry-leading SLA, let our advanced technology do the work for you.

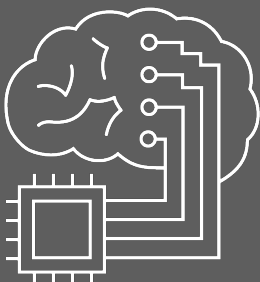

Accuracy above all

>99%

Our technology not only does the heavy lifting, it will even check itself for accuracy.

Demand the most from your technology

Experience the best from our **AI+UI** philosophy

AI

Consume the power of our advanced, self-learning technology through modern APIs

UI

Work, the way you want

- Fly through analysis with Excel-like keyboard shortcuts
- Customize borrower-level adjustments
- Subscribe to covenants and other threshold alerts
