MEMORANDUM

DATE: July 22, 2021

TO: Approved Third Party Certification Agencies

FROM: Michael J. Hamm, P.E.
Chief Code Consultant - Manufactured Building Division

RE: 2020 North Carolina Electrical Code Effective Date

Recently, it was announced that the *2020 NC Electrical Code* (2020 NEC with 2020 NC Amendments) **will become effective on October 1, 2021**. Therefore, *effective October 1, 2021*, when certifying Code Compliance to the current North Carolina State Building Code, whether on the certification cover letter, the submitted plans, or on the building's Data Plate(s), the **2020 NC Electrical Code** *must* be referenced. Thus, as of October 1, 2021 any NC Electrical Code reference year other than 2020 (whether on the third-party cover letter or on manufacturer's plan submissions) will not be considered valid. Please make necessary corrections as soon as possible.

cc: Joseph H. Sadler, Jr., P.E. -- Deputy Director
Barry Gupton, P.E. -- Technical Services Manager
Shane P. Phelps -- Building Code Consultant
Bill Moeller, P.E. -- Building Code Consultant
Manufactured Building Division -- Field Staff
