

IT'S TIME TO GET

# THE MOST

FROM YOUR CLOUD EXPERIENCE

PEGASUS IS EQUIPPED WITH ACTIONABLE INSIGHTS AND SECURITY PROTECTION SO YOU GET THE **“MOST”** FROM YOUR CLOUD JOURNEY.

## CLOUD ANALYTICS PACKAGE

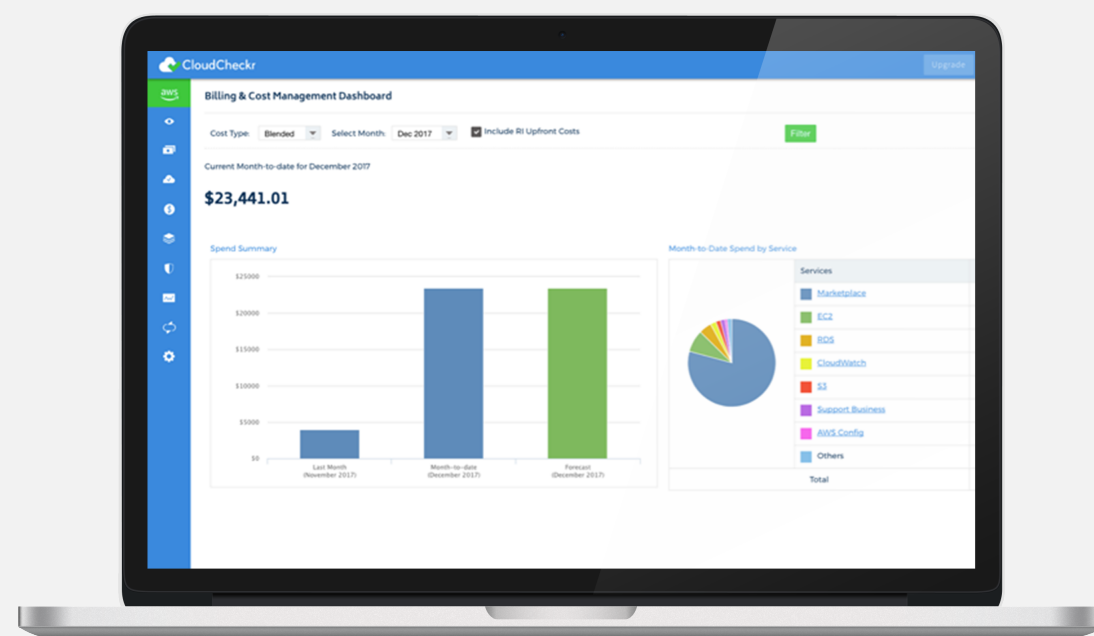

We all know the benefits of the Cloud, but our job is to ensure your Cloud environment is quantifiably helping your business. No smoke and mirrors. You can't definitively know that your company is getting the most cost savings and efficiency from the cloud if you don't have a management tool in place. Pegasus utilizes the CloudCheckr Analytics tool to give our Customers full transparency into their real-time cloud usage. The power of analytics-driven decision making allows you to manage and allocate costs, optimize spending and save money.

### COST ALLOCATION

- › Granular Cost Reporting
- › Budget Monitoring
- › Budget Alerts

### COST OPTIMIZATION

- › Eliminate Waste
- › “Right-Size” Resources
- › Purchase Strategy Planning
- › Reserved Resource Management

## CLOUD MANAGEMENT PACKAGE

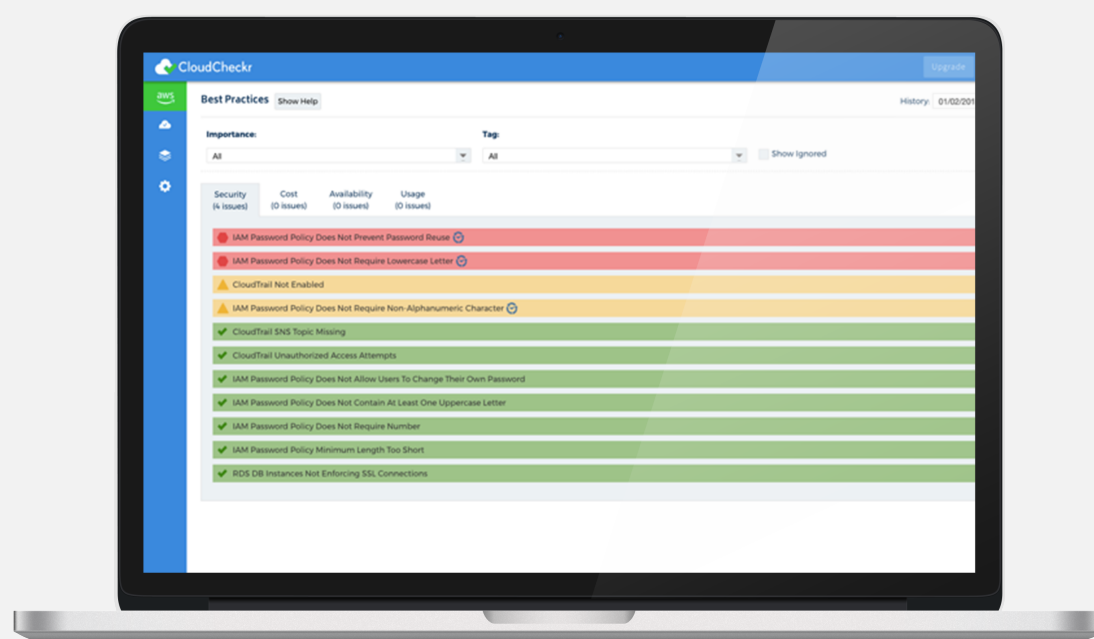

Our Cloud Asset Services offer more than just cost savings. In addition to security monitoring, we can conduct security risk assessments on your behalf and ensure regulation compliance. We recommend allocating the same type of security resources you would to run your own on-prem data center with a few changes to reflect the nature of the cloud. Sleep better at night with unified secure configuration management and activity monitoring for your public cloud environment, managed by the cybersecurity experts at Pegasus.

### SECURITY

- › Log Intelligence
- › Configuration & Changes
- › Activity Monitoring
- › User Tracking & Permissions
- › Perimeter Assessment
- › Continuous Compliance
- › Traffic Analysis

### AUTOMATION

- › Resource Scheduling
- › RI Rebalancing
- › Start/Stop Instances
- › Snapshots & Backups
- › Enforce Tagging Policy
- › Clean Up Unused Resources
- › Clean Up Security Groups
