

SIDE-BY-SIDE COMPARISON

GRAVITY SOFTWARE® vs. QUICKBOOKS® ONLINE

Tell tale signs you've outgrown Quickbooks

QuickBooks Online (QBO) is a great starting point for small businesses with basic accounting needs. However, that can shift quickly once a company starts to grow. View our comparison scorecard to see why Gravity Software is the best alternative to QuickBooks Online.

Built on the Microsoft Power Platform, Gravity increases productivity, efficiencies and eliminates month-end accounting madness.

Feature Rich Capabilities

- Multi-entity consolidated financial reporting
- Single entry inter-company transactions (journals, invoices, vouchers)
- Sophisticated multi-location, department or profit center reporting
- Track and report based on user defined dimensions
- Personalized dashboards with real-time insights that are important to your business
- Create multi-company journals with a single drag and drop
- Better security and complete audit trails
- Open API to integrate to external applications
- Eliminate manual work with robust workflow automation
- Better internal controls
- Sophisticated multi-currency

Better. Smarter. Accounting.
