Thompson specializes in safe, quality Lifecycle Industrial Cleaning Service Solutions including **disinfecting services for the current pandemic**. We share in your commitment to health and safety during this serious and unprecedented pandemic outbreak. Our fully trained response team is prepared to combat and slow the current COVID-19 threat through proper cleaning disinfecting/sanitizing and decontamination services, and we can also assist with disposal of any related biohazardous material as may be applicable.

Thompson uses EPA-registered disinfectant products that have been **qualified for use against SARS-CoV-2**, the novel coronavirus that causes COVID-19. The product can be fogged, misted, foamed or sprayed to thoroughly disinfect all touchable spaces. This environmental disinfection process includes specific **disinfection/sanitizing procedures that should only be performed by trained professionals**.

Our response team is trained to help you combat further spread and cross-contamination of the virus. We'll provide:

- Assessment + decontamination plan of area to be disinfected.
- Strict decontamination procedures consistent with CDC and OSHA guidelines. Use of Level C PPR including NIOSH approved full face respirators w/P-100 cartridges, Tyvek suits, layered gloves + more.
- Application of EPA-registered disinfectant per CDC infection prevention + control protocols.
- Release date: March 19, 2020
Coronavirus (COVID-19) Pandemic: Eligible Emergency Protective Measures taken to respond to the COVID-19 emergency at the direction or guidance of public health officials may be reimbursed under Category B of FEMA's Public Assistance program.

Fogging Application

Foaming Application

FEMA REIMBURSEMENT MANAGEMENT
