

OutCold[®]

Vehicle Upfitting

Vehicle Upfitting is an effective way to customize your fleet to work even harder for you. We focus on products proudly made in the USA, and when possible made right here in Illinois. We keep the supply chain short with customer service and quality levels high. From 3D printing to custom steel and aluminum fabrication to installing new HVAC systems, you'll find that we're fast and friendly with a focus on getting the job done.

Pricing varies on job details as well as fleet size. Our services include:

- Interior Shelving
- Cargo Organization
- Security (locks, cages and cameras)
- Cargo area HVAC systems
- Upgraded Flooring
- Sound Proofing
- Custom Exterior Graphics
