

EXTREME COLD WEATHER PACKAGE

WITH EXTREME COLD WEATHER PACKAGE

The ability to perform vacuum loading and emergency spill response is critical for many operations, even in sub-zero weather conditions. Operators need to know that their equipment is designed to handle the extreme conditions and perform as expected. Whether you are vacuuming solids, dry bulk powders, liquids, slurries or thick sludge, the Guzzler LR Classic with Extreme Cold Weather package delivers the performance of a Guzzler Classic you have come to expect, with the confidence to work in sub-zero temperatures.

- Cyclone pre-filter
- Liquid float ball shutoff
- Float level indicator
- Tailgate platform and ladder
- 4" manual vacuum relief
- 8" air operated relief
- **OMSI transference with air-shift**
- **Dual LR Pump or blower packages**
- **Weather tight control panel**
- **Heating coils for water tower (LR version only)**
- **Arctic weather hydraulic package**
- **Heated fuel filter**
- **Engine block heater**
- **Engine oil pan heater**
- **Fuel tank heater**
- **Insulated battery box**
- **Battery pad heater**
- **Insulated fuel lines**
- **Heated mirrors**
- **Extreme temperature insulated chassis cab**
- **Heated read door for arctic use**
- **Hydraulic rear door with wedge locks**
- **6" manual knife gate decant**
- **Heated debris body for arctic use**
- **18 yd debris body 1/2 opening rear door**
- Bag house/cyclone chamber side access cleanout doors
- Color coded sealed electrical system
- Transfer case shift protection system
- Spring loaded ground reel
- Heavy duty electric vibrator
- Radial diversion wing
- Rear inspection port

Option: Telescopic boom, washdown, sludge pump
