

DOZER RC MINI EXCAVATOR

Mini radio controlled dozer for moving heavy material in difficult and inaccessible places.

The Dozer RC is a great solution for moving and removing materials in difficult to reach places, because of their small height from the ground. Perfect for working in dangerous and confined spaces, Dozer RC is mainly used in mines, pot lines cleaning, tanks and in areas under conveyor belts. This excavator is completely remote controlled and can be operated at a safe distance from the operator when working in high-risk work environments. The hand remote control gives the loader good manoeuvrability, guaranteeing safety at every stage.

MACHINE WEIGHT AND DIMENSIONS		
Weight	880 [Kg]	1940 [lb]
Min height	500 [mm]	20"
Max height	700 [mm]	28"
Length	2230 [mm]	88"
Width	900 [mm]	39"

DOZER RC MINI EXCAVATOR

DIMENSIONS AND CAPACITY:

The new Dozer RC is equipped with 4 removable 200 mm [8"] brackets which allow the engine box to work higher from the ground, allowing the Dozer to work with the tracks fully covered by water or sludge.

SENSORS AND SAFETY EQUIPMENT:

- Electric fuel level check
- Electric hydraulic oil level check
- Electric hydraulic oil temperature check
- Manual battery switch
- Safety lights and sound alarms, in accordance to mining standards

REMOTE CONTROL:

- One double axis joy stick
- All hydraulic actuators proportionally controlled
- Start/Stop of engine controlled from transmitter
- Rabbit/Turtle selection controlled from transmitter

DIESEL ENGINE:

- Air cooled 11.2 KW
- External air filter with safety cartridge
- External exhaust silencer for important noise reduction
- N° 4 rubber anti-vibration absorbers
- Stainless steel housing
