

# SPILL CONTAINMENT BERM

Liquids and Waste....Contained.

Spill containment and access water run-off from your truck or waterblaster can be a major concern for many.

FS Solutions has *the solution* with an actual Spill Containment Berm. This portable containment berm is made from a heavy-duty liner to support the rigid wall support and angles needed to hold the waste. These easy-to-assemble berms are the ideal way to keep the working environment clean.

AVAILABLE FOR RENT OR PURCHASE
