

GATTO RC MINI EXCAVATOR

Tracked Mini Robot Excavator with hydraulic arm and optional suction hose, for removing hazardous material.

The Gatto RC Mini Excavator is a multifunctional and innovative Mini Excavator suitable for both construction and remediation activities. The remote controlled excavator is ideal for No-Man-Entry operations, working in confined spaces and contaminations areas. It is an innovated solution for safer operation at an even safe distance. The Gatto is equipped with a Suction Configuration, which can be connected to any Suction Unit (Vacuum Truck, Suction Excavator, Industrial Pumps).

GATTO RC MINI EXCAVATOR

MACHINE WEIGHT AND DIMENSIONS				
	Standard		Suction Configuration	
Weight	430 [Kg]	948 [lb]	585 [Kg]	1290 [lb]
Height	800 [mm]	31.5"	800 [mm]	31.5"
Length	2000 [mm]	79"	2000 [mm]	79"
Width	500 [mm]	20"	750 [mm]	30"
Standard suction hose	-	-	250 [mm]	10"

THE GATTO RC MINI EXCAVATOR IS THE PERFECT SOLUTION FOR:

- Reach narrow spaces, such as tunnels, sewer pipes and underground canals
- Working at a safe distance, avoiding man entry in confined spaces (with the radiocontrolled version Gatto RC)
- Operations of line, sign and pole installation, potholing, daylighting, rehabilitation of sewers and pipes (with the Suction Gatto variant)
- Simplify work, limiting the use of manual tools
- Reducing working time, with resulting lower costs
- Interchangeable options makes it easy for you to customize the Gatto to fit your application needs
