

Vacuum Trucks & Waterblasters

Parts • Repairs • Maintenance • Sales • Rentals • Training

Whatever the problem, we have the solution.

Customized Maintenance Inspections

Reduce downtime with periodic equipment inspections

- Factory trained technicians
- Documented maintenance for warranty assurance
- Any make, any model: industrial vacuum trucks, water blasting tools, and hydro excavators

Schedule Your Inspection Today!
800-822-8785

Have You Considered the Savings of Rebuilding over Buying New?

We can custom configure the scope of your vacuum truck rebuild to your specifications

The rebuild process includes, but is not limited to:

- **Tear down, evaluation, and rebuild** (if necessary) blower, pumps, and transfer case
- **Repair/replace**
 - Electrical and hydraulic hoses & lines
 - Worn out door gaskets, including tailgate & rear door seals
 - Control panel and fully check all functions
 - Level indicator, float ball & cage, debris deflector, decant valve, hydraulic cylinders, & air cannons
 - Fenders, lighting, mud flaps, and hydraulic tank
- **Blast and paint** entire vacuum body and power system from the back of the cab, one color

We can retrofit many options and upgrades to your unit!

Equipment

Industrial vacuum trucks
Vacuum excavators
Liquid vacuum trucks
