Integrate Payference with QuickBooks Desktop

Step 1. Login to Payference

Go to Settings \rightarrow Integrations

Step 2. Select QuickBooks Desktop

=	Search for an invoice, customer or vendor
Ð	← Data
I	
101	Select ERP Quickbooks Desktop -
ећ. \$	
ŝ	QWC Password*
*	Submit Download QWC file
-	

From the dropdown bar

Step 3. Enter the Password

In the QWC Password text box and click Submit. (Keep in mind that this is the same password that you will use in QuickBooks Web Connector utility.)

Step 4. After Submitting the Password

The Download QWC file button will be enabled

Step 5. Click on the Download QWC File Button

A file named Payference Web Connector Prod.qwc will then be downloaded

Step 6. Open the QuickBooks Desktop and Web Connector

Go to File \rightarrow App Management \rightarrow click Update Web Services

Step 7. On the Web Connector, Click Add an Application

And select the file named Payference Web Connector .qwc which was downloaded from Payference. Refer to the image on the following page to see its entry.

Step 8. Update the Password

That you used in Payference in Step 2 and click the Update Selected button

Step 9. Payference will be Connected

And will begin fetching data right away

Step 10. Once the Process is Complete

You will see Application Progress as 100%. You must keep the Web Connector open as data is fetched every 4 (four) hours.
