GIGSKY

GigSky now offers dataplans on iPhone, Android and iPad, which can be utilized in our North Sea network.

Smartphones activate plans via downloadable GigSky app

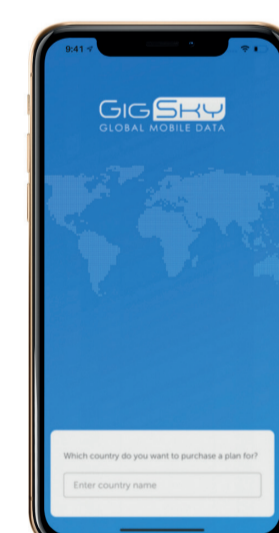

1

Go to the App Store and download the GigSky app >

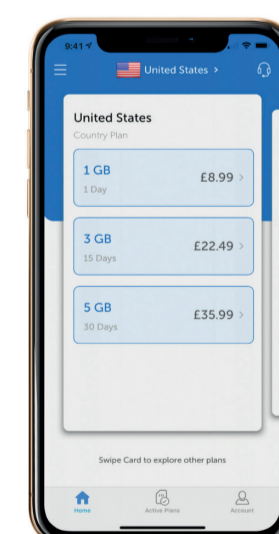

2

Select Allow to let the GigSky app send notifications [this is required to send you information when your data plan is running low] >

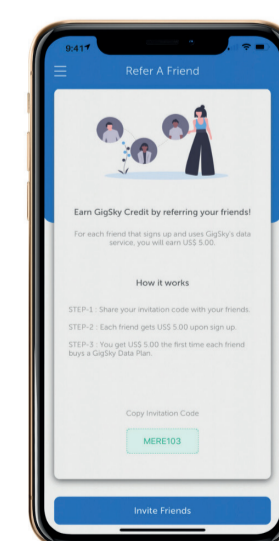

3

Search the country where you would like to purchase a data plan >

4

Select the data plan you wish to purchase > connect!

5

Plus, earn \$5 credit for every friend you refer!

Don't have an eSIM device? You can purchase a physical GigSky SIM card and manage your service at www.gigsky.com.
