affordable for all

## BRIDGING THE DIGITAL DIVIDE

There's never been a more vital time for MATs and schools to step up and support inclusive learning for each and every student. That's why it's vital that students have consistent and seamless access to digital tools and resources, whether in the classroom or at home.

In response, LGfL launched "Bridge the Divide" a huge national procurement initiative, for up to 1 million Chromebooks and Winbooks, passing on massive savings to schools and MATs and allowing them to increase vital access to devices for more pupils.

LGfL and Freedom Tech have teamed up to make these affordable devices even more affordable with completely flexible, fully managed leasing and parental contribution options to help you bridge the digital divide quickly and effectively.

- ✓ 32GB eMMC Storage
- ✓ Front-facing HD Camera

Pay monthly from **£4.98 per device per month** over 3 years or **£7.08 per device per month** including 3 Year Advanced Repair Service.

## THE 3 PATHWAYS

We have a number of options available to help build the right 1:1 device programme for you, your pupils, and your budget. Driven by affordable monthly payments or parental contributions, our commitment to helping you make digital learning inclusive is always the same.

### OPTION 1 LEASING

Get the **tech** you need **now** without the upfront investment with a **cost-effective** device leasing programme, helping you to **rapidly roll out** in a matter of days to students in need.

### OPTION 2 LEASE + REPAIR

**Rapid deployment** of devices with **additional peace of mind**. Our **flexible** and **affordable** leasing programme backed with our **Advanced Repair Service** to ensure as little lost learning time as possible in the event of damage to the device.

### OPTION 3 PARENTAL CONTRIBUTION

A **fully managed parental contribution programme** delivered by us. **We take on the admin burden** - everything from parent comms to managing payments.

## SAFEGUARDING

Keeping pupils and teachers safe when delivering education – whether at school or at home – is essential.

As schools there's no doubt that you're emphasising the need for a safe online environment, encouraging parents and carers to set parental controls on devices and use internet filters to block malicious websites and content, ultimately you can only influence, **you have no control**.

By giving students 1:1 access to a school owned device you can enable the same safe and secure access to appropriate learning resources and apps whether pupils are in the classroom or the living room.

## OPTIONS 1 + 2 LEASING

Get access to LGfL's low cost devices for a manageable monthly payment. Add our Advanced Repair Service for additional peace of mind.

### For pupils

Bridge the digital divide in your institution quickly and effectively with no upfront costs

The latest devices into the hands of every student

Provide a consistent learning experience

Reduce loss of learning time when you add our Advanced Repair Service

### For you

Off-balance sheet payments

Additional cash to re-route into long-term investments and projects

Zero-risk service supported with repairs and more

Optional Advanced Repair Service bolt-on. Get the latest tech fully protected for a lower cost than buying outright

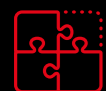

## OPTION 3

# PARENTAL CONTRIBUTION

To further offset your costs and still provide the digital tools needed for a consistent learning experience, we offer a fully-managed parental contribution programme to support your device investment.

### Benefits for pupils and parents

Access to the latest technology to support blending learning

A personalised learning device helping pupils to learn in a way that suits them

No personal credit checks

Complete peace of mind

Spread payments for school devices over time

### Benefits for you

Completely offset the cost of investing in new devices

No admin burden - the programme is fully managed end-to-end by Freedom Tech, including all parent communication, ordering portals and payment processing

No risk - supported by full repair service and secure disposal of end-of-life devices.

“Their customer care is excellent. As a school we had never done anything like this before, and we had a lot of questions on a daily basis. We were quite demanding at times and the team at Freedom Tech just took it all in their stride.”

*Emma Darcy, Director of Technology for Learning, Denbigh High School*

“This year we had a parent who missed the programme completely. They were absolutely gutted as they wanted to give a device as a Christmas present to their child. Freedom Tech worked hard around the standard ordering portal process to make certain the parent had one in time for the big day. Most companies would have turned their back on an isolated case like that, but Freedom Tech worked night and day to deliver delight. I can't recommend them enough.”

*Mike Ward, IT Manager, Wickersley Partnership Trust*

## Why LGfL & Freedom Tech?

Committed to delivering an inclusive learning experience

Trusted partners of schools and MATs for nearly a decade

Wholly owned by CSI Leasing, with 5 decades of trading history and \$1.6bn in assets

Members of the Finance and Leasing Authority (FLA)

Data processing fully GDPR compliant and certified against ISO 27001
