## Fields Drill Down:

- Sorting Area: This field allows the user to choose what priority fields they predominantly use to sort data
- Report Columns: These columns can be moved to the sort field for prioritization or moved within the order from one column to another
- Filter Fields: Provides the user with multiple filter options to sort the data with specific parameters in mind
- Reset Grid: This button will reset all Reports Columns to the default order and clear Filtered Fields
- Export Options:
  - Excel: will export to an Excel Spreadsheet
  - CSV: Export data to a Tabular Data spreadsheet

3. Sorting Area

000

The Sorting Area offers the user the ability to add a column header to this field to prioritize a particular field value and sort by Ascending or Descending with just one click of the mouse.

4. Report Columns

 $\mathbf{O}$ 

The Report Columns are data fields that each represent a specific data list. These columns can be sorted in any order along the top of the column area.

Check columns to appear in report

WITHIN GRASP

\$

5. Filter Fields

000

The filter fields options provide the user with the ability to search reports for specific results

- Type search item into related search box
- Click on filter icon
- Search multiple field filter options
- Filter options

6. Reset Grid

000

The Reset Grid option provides the user with the ability to return the report page to Default settings that include the following:

- Reset the Sorting Area
- Reset the Page Size
- Reset all Column headers that have been arranged
- Reset all filtered fields

7. Export Options

The tool also provides the user with the choice to export a copy of the Where Are My Travelers report as sorted by using the two options:
