

# ALL PURPOSE PLANTING MIX AND HIGH QUALITY MULCH

### BLEND:

Composted Forest Material, Canadian Peat Moss, Oak Leaf Mold, and Perlite

### SIZE OPTIONS:

- .5 CU (120 bags per pallet)
- 2 CU (52 bags per pallet)
- Bulk (4 yd. minimum - varies by region)

### BENEFITS:

- Planting mix with high quality ingredients
- Ideal for soil amending
- Provides proper pH and drainage characteristics needed for azaleas, camellias, gardenias, and other shade-loving plants
- Conserves water by reducing moisture loss due to evaporation

### BEST USE:

Ideal soil conditioner for planting flowers, shrubs, trees, and vegetables. Planting mix should not be confused with potting soil due to the characteristics of its combined mix. It is lighter and holds moisture longer. LGM Planting Mix contains organic composted forest material, Canadian peat moss, oak leaf mold, and perlite. This combination makes for a higher quality mix of ingredients that support longer lasting quality of amendments within your soil.

### APPLICATION USAGE:

Cover area with 1/4" deep layer

1 CF will cover approx. 50 sq ft. for mulch or mixing in the soil 2-6" deep

1.5 CF will cover approx. 75 sq ft. for mulch or mixing in the soil 2-6" deep

2 CF will cover approx. 100 sq ft. for mulch or mixing in the soil 2"-6" deep

1 CY will cover approx. 1,296 sq ft. for mulch or mixing in the soil 2"-6" deep
