

PREMIER TBK
PEAT MOSS
FOR ALL ACID LOVING PLANTS

BLENDS:

100% Canadian Sphagnum Peat Moss

SIZE OPTIONS:

3.8 CU (30 bags per pallet)

BENEFITS:

- Nursery Grower Grade
- Naturally Acidic (Low Ph)
- Approved for organic growing
- Excellent soil conditioner due to high organic content.
- In clay soils, peat moss will aggregate soil particles to give better aeration and drainage
- In sandy soils, high water-holding capacity will help to retain moisture and nutrients, especially during hot summer months
- Reduces the possibility of erosion
- Sustainably harvested

BEST USE:

Annuals, foliage plants, potted flowering plants, greenhouse vegetables, perennials, potted trees and shrubs, vegetable transplants, plug & germination, mushrooms, and landscaping.

Surprisingly you can find it in swampy, waterlogged areas primarily located in the Northern Hemisphere - making Peat Moss a delicacy for garden plants. Peat Moss does not compact or breakdown right away, so all you need is one application that will last several years.

APPLICATION USAGE:

(Once Expanded)

3.8 CF will fill 20-40 – 1 gallon pots or will fill 8-10 5 gallon pots

2211 Chico Ave. South El Monte CA, 91733
