

**SECTION 1: Identification of the article and of the company/undertaking****1.1. Product identifier**

Article name : PEI 1010

**1.2. Relevant identified uses of the article and uses advised against****1.2.1. Relevant identified uses**

Main use category : Industrial use, Professional use, Consumer use

**1.2.2. Uses advised against**

No additional information available

**1.3. Details of the supplier of the safety document**

ARMOR 3D

7, rue de la Pélissière

44118 La Chevrolière - France

T +33(0)240384000

**1.4. Emergency telephone number**

No additional information available

**SECTION 2: Hazards identification**

Not applicable

To our knowledge, this product does not present any particular risk, provided it is handled in accordance with good occupational hygiene and safety practice.

**SECTION 3: Composition/information on ingredients**

PolyEtherImide

**SECTION 4: First aid measures****4.1. Description of first aid measures**

First-aid measures general : Thermal decomposition may produce : irritating gases, irritating vapours. Move the affected person to the fresh air. Obtain medical attention.

First-aid measures after inhalation : Move to fresh air in case of accidental inhalation. If you feel unwell, seek medical advice.

First-aid measures after skin contact : Gently wash with plenty of soap and water.

First-aid measures after eye contact : Rinse immediately with plenty of water. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

First-aid measures after ingestion : Ingestion is not considered a potential route of exposure. If accidentally swallowed obtain immediate medical attention.

**4.2. Most important symptoms and effects, both acute and delayed**

Symptoms/effects : None known.

**4.3. Indication of any immediate medical attention and special treatment needed**

No additional information available

**SECTION 5: Firefighting measures****5.1. Extinguishing media**Suitable extinguishing media : Water spray. dry chemical powder, alcohol-resistant foam, carbon dioxide (CO<sub>2</sub>).

Unsuitable extinguishing media : Do not use a solid water stream as it may scatter and spread fire.

**5.2. Special hazards arising from the article**

Explosion hazard : Avoid dust formation. Potential dust explosion hazard from airborne release.

Hazardous decomposition products in case of fire : Fire will produce dense black smoke. Thermal decomposition generates : Carbon oxides (CO, CO<sub>2</sub>). Hydrocarbons. Hydrogen cyanide. Nitrogen Oxides (NO<sub>x</sub>). Halogenated hydrocarbons.**5.3. Advice for firefighters**

Protection during firefighting : Use a self-contained breathing apparatus and also a protective suit. Keep upwind.

Other information : Take precautionary measures against static discharge. Finely dispersed particles form explosive mixtures in air. Thermal decomposition may produce : irritating gases. irritating vapours.

**SECTION 6: Accidental release measures****6.1. Personal precautions, protective equipment and emergency procedures****6.1.1. For non-emergency personnel**

Emergency procedures : Take precautionary measures against static discharge.

# PEI 1010

## Safety Document

### 6.1.2. For emergency responders

No additional information available

### 6.2. Environmental precautions

Do not allow to enter drains or water courses. Avoid release to the environment.

### 6.3. Methods and material for containment and cleaning up

Methods for cleaning up : Shovel or sweep up and put in a closed container for disposal. Minimise generation of dust.

### 6.4. Reference to other sections

For further information refer to section 13.

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

Precautions for safe handling : Handle in accordance with good industrial hygiene and safety practice. Ensure good ventilation of the work station. Avoid dust formation. All equipment used when handling the product must be grounded.

Hygiene measures : Do not eat, drink or smoke when using this product.

### 7.2. Conditions for safe storage, including any incompatibilities

Storage conditions : Store in a dry, cool area. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Keep away from ignition sources.

### 7.3. Specific end use(s)

No additional information available

## SECTION 8: Exposure controls/personal protection

### 8.1. Control parameters

No additional information available

### 8.2. Exposure controls

#### Appropriate engineering controls:

Handle in accordance with good industrial hygiene and safety practice. Ensure good ventilation of the work station.

#### Materials for protective clothing:

Wear proper protective equipment

#### Hand protection:

Protective gloves

#### Eye protection:

Wear closed safety glasses

#### Skin and body protection:

Long sleeved protective clothing

#### Respiratory protection:

Ensure adequate ventilation. In case of breathable dust, use a self-contained breathing apparatus

## SECTION 9: Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

Physical state	: Solid
Colour	: amber.
Odour	: slight.
Odour threshold	: No data available
pH	: No data available
Relative evaporation rate (butylacetate=1)	: No data available
Melting point	: No data available
Freezing point	: No data available
Boiling point	: No data available
Flash point	: No data available
Auto-ignition temperature	: No data available
Decomposition temperature	: No data available
Flammability (solid, gas)	: No data available
Vapour pressure	: No data available
Relative vapour density at 20 °C	: > 1
Relative density	: No data available
Solubility	: No data available

# PEI 1010

## Safety Document

Log Pow	: No data available
Viscosity, kinematic	: No data available
Viscosity, dynamic	: No data available
Explosive properties	: No data available
Oxidising properties	: No data available
Explosive limits	: No data available

### 9.2. Other information

No additional information available

## SECTION 10: Stability and reactivity

### 10.1. Reactivity

Stable under the recommended storage conditions.

### 10.2. Chemical stability

Stable under normal conditions.

### 10.3. Possibility of hazardous reactions

None under normal use. Hazardous polymerization does not occur.

### 10.4. Conditions to avoid

To avoid thermal decomposition, do not overheat. At high temperature may liberate dangerous gases.

### 10.5. Incompatible materials

No additional information available

### 10.6. Hazardous decomposition products

Small amounts: hydrocarbons. Phenol. Alkylphenols. Diarylcarbonates.

## SECTION 11: Toxicological information

No additional information available

## SECTION 12: Ecological information

No additional information available

## SECTION 13: Disposal considerations

### 13.1. Waste treatment methods

Waste treatment methods : Recycling is preferred to disposal or incineration.

Product/Packaging disposal recommendations : Dispose of in accordance with relevant local regulations.

## SECTION 14: Transport information

Not applicable

## SECTION 15: Regulatory information

No additional information available

## SECTION 16: Other information

No additional information available

*This information is based on our current knowledge and is intended to describe the product for the purposes of health, safety and environmental requirements only. It should not therefore be construed as guaranteeing any specific property of the product.*
