

### SECTION 1: Identification of the article and of the company/undertaking

#### 1.1. Product identifier

Article name : PEI-9085

### 1.2. Relevant identified uses of the article and uses advised against

#### 1.2.1. Relevant identified uses

Main use category : Industrial use, Professional use, Consumer use

#### 1.2.2. Uses advised against

No additional information available

### 1.3. Details of the supplier of the safety document

ARMOR 3D

7, rue de la Pélissière

44118 La Chevrolière - France

T+33(0)240384000

#### 1.4. Emergency telephone number

No additional information available

### **SECTION 2: Hazards identification**

Not applicable

To our knowledge, this product does not present any particular risk, provided it is handled in accordance with good occupational hygiene and safety practice

### **SECTION 3: Composition/information on ingredients**

Polyetherimide

### SECTION 4: First aid measures

#### 4.1. Description of first aid measures

First-aid measures after inhalation : Move to fresh air in case of accidental inhalation. If symptoms persist call a doctor.

First-aid measures after skin contact : Cool skin rapidly with cold water after contact with molten product. Gently wash with plenty of soap and water. Get medical advice/attention.

: Rinse immediately with plenty of water. Remove contact lenses, if present and easy to do.

Continue rinsing. If eye irritation persists: Get medical advice/attention. : No hazards which require special first aid measures. First-aid measures after ingestion

# 4.2. Most important symptoms and effects, both acute and delayed

No additional information available

First-aid measures after eye contact

## 4.3. Indication of any immediate medical attention and special treatment needed

No additional information available

### **SECTION 5: Firefighting measures**

#### 5.1. Extinguishing media

Suitable extinguishing media : Water spray. dry chemical powder, alcohol-resistant foam, carbon dioxide (CO2).

Unsuitable extinguishing media : Do not use a heavy water stream.

### 5.2. Special hazards arising from the article

Hazardous decomposition products in case of fire : Fire will produce dense black smoke. Thermal decomposition generates : Carbon oxides

(CO, CO2). Various hydrocarbon fragments. Nitrogen Oxides (NOx). Hydrogen cyanide.

# 5.3. Advice for firefighters

Precautionary measures fire

: Take precautionary measures against static discharge. Dust may form explosive mixture in air. Decomposes on exposure to temperature rise: release of irritant gases/vapours.

Protection during firefighting : Do not attempt to take action without suitable protective equipment. Use a self-contained breathing apparatus and also a protective suit. Fight fire from safe distance and protected

location. Hazardous decomposition products.

### **SECTION 6: Accidental release measures**

## 6.1. Personal precautions, protective equipment and emergency procedures

: See Heading 8. General measures

#### 6.1.1. For non-emergency personnel

No additional information available

### 6.1.2. For emergency responders

No additional information available

## 6.2. Environmental precautions

Do not allow to enter drains or water courses. Do not allow product to spread into the environment

6/4/2019 1/3 EN (English)

# **PEI-9085**

## Safety Document

### 6.3. Methods and material for containment and cleaning up

Methods for cleaning up : Shovel or sweep up and put in a closed container for disposal. Minimise generation of dust.

## 6.4. Reference to other sections

No additional information available

### **SECTION 7: Handling and storage**

#### 7.1. Precautions for safe handling

Precautions for safe handling

: Handle in accordance with good industrial hygiene and safety practice. Ensure good ventilation of the work station. Avoid dust formation. Ground/bond container and receiving equipment.

#### 7.2. Conditions for safe storage, including any incompatibilities

Storage conditions

Store in a dry, cool area. Store in a closed container. Keep away from heat. Keep away from ignition sources.

### 7.3. Specific end use(s)

No additional information available

### SECTION 8: Exposure controls/personal protection

### 8.1. Control parameters

No additional information available

#### 8.2. Exposure controls

#### Appropriate engineering controls:

Handle in accordance with good industrial hygiene and safety practice. Ensure that there is a suitable ventilation system.

#### Hand protection:

Protective gloves

#### Eye protection:

Wear closed safety glasses

#### Skin and body protection:

Long sleeved protective clothing

#### Respiratory protection:

Where exposure through inhalation may occur from use, respiratory protection equipment is recommended

: No data available

### Other information:

Colour

Do not eat, drink or smoke during use.

### **SECTION 9: Physical and chemical properties**

#### 9.1. Information on basic physical and chemical properties

Physical state : Solid

Odour threshold : No data available рΗ No data available Relative evaporation rate (butylacetate=1) : No data available Melting point : No data available : No data available Freezing point Boiling point : No data available Flash point : No data available : No data available Auto-ignition temperature Decomposition temperature : No data available Flammability (solid, gas) : No data available No data available Vapour pressure Relative vapour density at 20 °C : No data available

Relative density : > 1

Solubility : not soluble in water.

Log Pow : No data available

Viscosity, kinematic : No data available

Viscosity, dynamic : No data available

Explosive properties : No data available

Oxidising properties : No data available

Explosive limits : No data available

# **PEI-9085**

# Safety Document

## 9.2. Other information

No additional information available

### **SECTION 10: Stability and reactivity**

# 10.1. Reactivity

No additional information available

#### 10.2. Chemical stability

Stable under normal conditions.

## 10.3. Possibility of hazardous reactions

Hazardous polymerization does not occur.

### 10.4. Conditions to avoid

To avoid thermal decomposition, avoid elevated temperatures. Heating can result in the formation of gaseous decomposition products, some of which may be hazardous. Do not exceed melt temperature recommendations in product literature. Purgings of hot material should be collected in small, flat, thin shapes and quenched with water to allow for rapid cooling. Do not allow product to remain in barrel at elevated temperatures for extended periods of time.

### 10.5. Incompatible materials

No additional information available

### 10.6. Hazardous decomposition products

Hazardous vapours may be released. hydrocarbons. Phenolic compounds.

### **SECTION 11: Toxicological information**

No additional information available

### **SECTION 12: Ecological information**

No additional information available

### **SECTION 13: Disposal considerations**

### 13.1. Waste treatment methods

Waste treatment methods

: If recycling is not possible, eliminate in accordance with local valid waste disposal regulations.

# **SECTION 14: Transport information**

Not applicable

### **SECTION 15: Regulatory information**

No additional information available

### **SECTION 16: Other information**

No additional information available

This information is based on our current knowledge and is intended to describe the product for the purposes of health, safety and environmental requirements only. It should not therefore be construed as guaranteeing any specific property of the product.
