SOLUTION ARCHITECT
D365/AZURE

Role type: Permanent
Location: Birmingham / Work from home
Salary: Competitive

The Solution Architect is required for a leading provider of IT Technology Solutions based in Birmingham. They will be primarily responsible creating solution designs that meet the needs of both our clients and the Crimson portfolio of solutions, accelerators, and frameworks. Utilising industry best practice, knowledge and experience to meet the business, service level and software architecture needs of the client in the most cost-effective and secure manner.

They will work closely with the Sales and Consultancy Teams in shaping solutions and building credibility with clients. Internally they will lead the High-Level Design phase and support the Project Manager and Functional/Technical lead through delivery and implementation.

An ideal candidate will have excellent client-facing skills, experience in supporting the full project lifecycle and have a broad knowledge of multiple IT solutions technologies, and business verticals, coming from a background in Microsoft Services.

Currently the company is operating on a hybrid working model, split between WFH, Crimson offices and travel to customer site as and when required.
