making technology *human*

boxxe makes the global workplace habitable from a technological and human perspective. One does not overrule the other. They function efficiently and effectively together.

We believe in reciprocal adaptation: adapting technology to people and people to technology.

We aim to make organisations the best they can be through technology and by giving every person, wherever they are in the world, the confidence to use that technology to drive efficiency and effectiveness in every aspect of their working lives.

How can we help to make you the best you can be?

Keep your business-critical data in Microsoft 365 *safe*

Microsoft 365 provides a wide array of powerful services within Office — but a comprehensive backup of your Microsoft 365 data is not one of them. Microsoft 365 enables an enterprise to work anywhere, anytime, without the need to host your own email, files and content management infrastructure. Even though Microsoft hosts the infrastructure, this doesn't replace an organisation's responsibility of maintaining a backup of their business-critical Office data

Get safe data control with **boxxe's Backup for Microsoft 365**.

digital

PROTECT office 365 solution from accidental deletion, security threats and retention policy gaps

RESTORE individual emails, files and site data quickly

UNLIMITED retention to meet compliance requirements

Backup your Office

We will eliminate your data recovery and compliance risk by backing up your Microsoft 365 tenant data to storage housed in our secure data centre. Using the power of Veeam Backup for Microsoft 365 and boxxe's own security pedigree and infrastructure, we secure data from:

Exchange Online

SharePoint Online

OneDrive for Business

Microsoft Teams
