making technology *human*

boxxe makes the global workplace habitable from a technological and human perspective. One does not overrule the other. They function efficiently and effectively together.

We believe in reciprocal adaptation: adapting technology to people and people to technology.

We aim to make organisations the best they can be through technology and by giving every person, wherever they are in the world, the confidence to use that technology to drive efficiency and effectiveness in every aspect of their working lives.
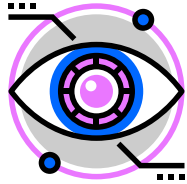

How can we help to make you the best you can be?

boxxe

drive lasting value
# from your microsoft 365
investment

A Microsoft 365 implementation never stands still. New services, data, users and enhancements are regular additions. To ensure you're getting the most from your tenant, businesses are advised to regularly review the configuration and security of their Microsoft 365 environment. Our unobtrusive health check will review your Microsoft 365 Cloud environment and produce a health check report including valuable operational metrics and recommendations to help you ensure performance and compliance.

Stay healthy with boxxe's **Microsoft 365 Health Check service**

INSIGHT in to the health of your Microsoft 365 Cloud environment

SECURITY cleared consultants assess the tenant; no personal information is collected and no data is changed

IMPROVE security, increase productivity, improve user adoption and meet compliancy

RECOMMENDATIONS from our specialists help you optimise your Microsoft 365 investment

Enable proactive decisions and optimise your Microsoft 365 investment

Conducted by one of our highly trained consultants, the health check is carried out remotely in as little as 2 hours so there is no disruption to your business.

Your consultant will review your Microsoft 365 Cloud environment and produce a report that verifies the health of your environment and includes recommendations which you can use to improve security, meet compliancy, increase productivity and improve user adoption.

Lasting transformation

Following the health check, our consultants will provide your nominated contacts with a report and recommendations to help you thrive.

We only share the report and recommendations with the nominated contacts. When we have your report, your assigned consultant will arrange a call to go through our findings. We will discuss any remediation actions we would suggest along with other recommendations for securing and optimising your Microsoft 365 environment.

Let our specialists create a report with recommendations tailored to you

EXPOSE any performance obstacles within your environment

CONFIGURE your environment against current best practices and performance capabilities to get the highest level of productivity

UNDERSTAND how many files are being shared dangerously

IMPLEMENT the latest security recommendations and make your environment safer

IDENTIFY any issues within Exchange and SharePoint such as sending and receiving SPAM or inactive sites

DETERMINE the scope of any issues and prioritise remedial actions

UNDERSTAND the services which are used and those which are barely touched vs the licenses you have
