

# KochaSoft

*Your SAP on Cloud Experts*

KochaSoft is uniquely positioned to provide significant advantages to its customers with its world-class talent and cost-efficient model. Through our deep investments in automation tools and technologies, we can help our customers in harnessing the power Cloud and SAP's digital platforms. By doing so, we bring unbeatable value to their business stakeholders and shareholders.

## Who We Are

KochaSoft is the premier global cloud services organization that focuses on the optimization of SAP business technology in the cloud.

Our customers rely on us as an essential, all-in-one partner for enterprises when it comes to their digital transformation needs.

## A Few of Our Valued Customers

## Extended Partner Network

## What We Do

**We're a one stop shop for all things cloud migration and IT support.**

- SAP Consulting for S/4HANA, Fiori, Analytics and more
- Cloud Training Services
- Application Managed Services

## Key Customer Story: Carhartt

**Carhart: A 200-year-old Fashion and Retail America Brand**

**Scope:** S/4HANA, CAR, SLT, PO on HANA, and several Non-SAP Applications successfully migrated to Azure - *altogether over 200 VMs on Azure.*

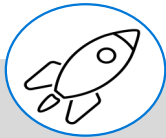

**Engagement scope for KochaSoft:** Azure Infrastructure build deployment and sustainment. SAP installation, Backup Setup, migration and continuous AMS support. Full security support including user management.

# Why Us?

## Trust & Expertise

Our expertise is based on providing cloud services and solutions optimized for SAP in the Cloud. We deploy this knowledge in a network that supports delivery of cloud technologies to customers worldwide who need excellent, trustworthy solutions.

## Client-centric DNA

The primary enablement company for SAP on any cloud platform specific technologies, and we work closely with our partners to deliver cloud training to IT companies and their professional staffs. This includes software service providers such as Accenture, Atos, IBM, and Capgemini.

## Innovation

Our state-of-the-art Solution Experience Center enables our customers to simulate the full range of cloud technologies available today.

## Authority

We serve on cloud-architecture boards, publish articles and books on cloud solutions, and present our influential expertise at international technical conferences.
