<p><b>Have falls decreased since the introduction of RITA?</b></p>	<p>We have only been using RITA in our service for approximately 1 month. We have already seen a <b>SIGNIFICANT REDUCTION</b> in falls.</p>

*The residents in our care have really taken to the RITA system. Everyone loves it!*

*We have seen an improvement with the residents engaging in group work activities. Some residents who would normally not take part in group activities are now joining in and participating.*

*This results in greater stimulation and we see boosts in their confidence.*

*We have also seen family members starting to interact with RITA too which is really nice to see.*
