**Customers must have an existing Office 365 tenancy to qualify for the Rapid Deployment offer. Additional work may be required to setup customers who do not currently have an Office 365 Tenant.*

Included within the six month trial licenses is the ability for customers to experience the full value of Microsoft Teams free of charge for six months. Trial licenses will not auto convert to paid subscriptions at the end date.

***Customers who move their Office 365 licensing management over to Six Degrees as part of the offer will qualify for the discounted rate, regardless of their current contractual status. Six Degrees would seamlessly takeover Office 365 License billing when the current period ends and in the meantime obtain access to the tenancy to facilitate the trial licenses.*
