

MICROSOFT 365 IT – IT MANAGEMENT SERVICE

Maximise your Microsoft 365 investment
Beyond Cloud.

With Six Degrees, you can maximise your Microsoft 365 investment and ensure that your organisation remains focused on your key objectives. Through our expert team, your IT team can access third-line support including user administration and licence management, backup your data stored in Microsoft 365, and identify security risks in your tenant through CIS benchmark security assessments for your Microsoft 365 platform.

Microsoft 365 IT – IT Management Benefits

- Access additional support for your IT team
- Keep your data safe with the Microsoft 365 Backup service
- Identify security risks in your tenant through bi-annual security assessments
- Boost productivity through Microsoft Teams and Office apps and services
- Safeguard your data and defend against cyber threats
- Streamline IT setup and management through a unified productivity solution

Microsoft 365 IT – IT Management Service Features

Configure, manage and monitor your Microsoft 365 service.

Six Degrees will manage your Microsoft 365 subscriptions and monitor for any significant incidents reported by Microsoft in services including Exchange Online, Identity Service, Office 365 Portal, OneDrive, SharePoint, Microsoft Teams and Microsoft Intune.

Ensure business continuity and reliability.

The Microsoft 365 Backup Service provides regular external backups of data stored in Microsoft 365. The data protected includes Exchange Online Mailboxes, OneDrive for Business, SharePoint sites and files in Microsoft Teams sites.

Protect your organisation against cyber-threats.

Six Degrees performs bi-annual security assessments against industry recognised benchmarks to identify security risks in your Microsoft 365 tenant. The report we provide will help you identify where you need to take action to protect your organisation against evolving threats.
