

About Marien Perez

Marien is a highly experienced facilitator and coach who has worked with teams and leaders across industries and around the world. Her areas of expertise are in executive presence, leadership development and high-performance coaching where she works with leaders and executives of all abilities up to C-level. She combines educational psychology and business with over 12 years of coaching and facilitation experience to help her clients maximize their potential, increase resilience and lead successfully.

Marien has studied and worked out of Spain, her native country, most of her life. Her international experience has led to a fascination about how we adapt and learn. She uses this understanding to help her clients acquire new skills so they can grow and manage change in the corporate environment. The first step in working with Marien involves identifying the “critical move.” That is the one key change that has a domino effect on other aspects of leadership and career potential.

Marien’s pragmatic approach is interactive and insightful. She gives direct feedback, always speaks the truth and offers the support needed for leaders to become more resilient, more imaginative and more persuasive.

Examples of Marien’s work

- Delivered a series of coaching and feedback skills development programs for senior managers of a leading British healthcare provider
- Worked with senior leaders at a well-known European based FMCG organization developing their leadership skills by harnessing the power of narrative as part of a bespoke leadership program
- Coached a CFO in an engineering company to improve their board level communication skills, develop confidence and gravitas when communicating to large senior level audiences
