

OTDR COMPARISON CHART

MAXTESTER	FTB-1v2	FTB-2	FTB-500
7" outdoor-enhanced touchscreen	8" Multitouch, wide-screen	10.1" touchscreen	12.1" Touch screen, color TFT
Connects anywhere: USB, mobile, WiFi, and Bluetooth	Connects anywhere: USB, mobile, WiFi, VPN and Bluetooth	Connect anywhere: USB, mobile, Wi-Fi, VPN and Bluetooth	Connects anywhere: USB, 3G, Wi-Fi, VPN and Bluetooth
Leading FasTesT™ performances: certifies two fibers at two wavelengths under three seconds	Loaded with utilities: all the tools required to maximize field testing, plus any third-party applications	Loaded with utilities: all the tools required to maximize field testing, and any third-party application	Loaded with utilities: all the tools required to maximize field testing, plus third-party applications
Onboard assistant and diagnosis to eliminate reference errors and negative loss	Like a PC: available with a dual or quad core processor and Windows operating system	Like a PC: available with a dual or quad core processor and Windows-based operating system	Like a PC: Intel processor with Windows Embedded Standard operating system
Built-in Encircled-Flux compliancy as per ANSI/TIA and ISO/IEC	EXFO Connect-compatible: automated asset management; data goes through the cloud and into a dynamic database	EXFO Connect-compatible: automated asset management; data goes through the cloud and into a dynamic database	EXFO Connect-compatible: automated asset management; data goes through the cloud and into a dynamic database
100% automated fiber inspection: one-step process with pass/fail analysis at both ends of the fiber	Available in a standard or Pro model	Available in a standard or Pro model	GPS capabilities: accurate coordinates under the same conditions as a regular satellite GPS receiver
Certifies against multiple industry standards at once
