

# QUICK REFERENCE GUIDE- SECONDARY LCD ADVERTISING

## BASIC DETAILS

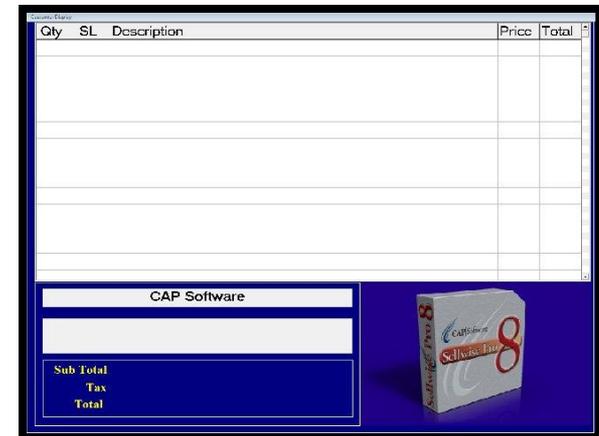

1. CAP supports secondary LCDs configured to run as an “Extension of the Desktop”
2. All screen resolutions are supported
3. Expected Display Modes:
  - Standby Mode- After 30 seconds of inactivity, the advertisement will play in full screen mode
  - Transaction Mode- During transactions, the advertisement will play in the bottom right corner of the screen
  - No Advertisement Standby- If the merchant doesn’t create an advertisement, the LCD will display the SellWise Pro 8 logo
  - No Advertisement Transaction Mode- The SellWise Pro 8 logo will appear in the bottom right corner of the screen

## SETUP INSTRUCTIONS

1. In Windows display settings, set the secondary LCD to run as the “Extension of the Desktop”
2. To create the advertisement, create a presentation in PowerPoint 2010 or higher. All animations and transitions are allowed.
3. Upon completion, select “Save As”, then “Other Formats”.
4. Save the file in **Windows Media Video** format, “.wmv”.
5. In CAP, open “**Configuration**”, and then “**Station Hardware**”.
6. Find “**Customer LCD Display**”, and select “**Yes**” as the setting.
7. For “**Advertisement File**”, click in the blank field, and browse to the “.wmv” presentation file.
8. Accept all changes, and exit Configuration.
