

Hippo's new stand-alone whiteboard allows you to track your patients within the clinic easier than ever. The new whiteboard also connects you directly to your charts, medications, problems and more!

You can access the new stand-alone Whiteboard with the new Whiteboard widget. Remember, widgets can be accessed on the Choose Action page, under the schedule, under the patient tab, or under your chart notes by clicking the 'pushpin' button.

Helpful Hippo Hint

All treatments must be completed, rejected, or deleted before a patient's status can be changed to "checked out" on the scheduler .

Please see the Treatment Sheet QSG for more info.
