### Word of God - Song Lyrics:

In the beginning was the Word, and the Word was with God,  
And the Word was God.  
There was nothing that was made before Him,  
He's the Word of God, the Word of God.

For He is the light in the darkness,  
Shining light to all who live in the world,  
Calling us as children of the One True God.

Come from the Father, He came to free us  
The Word became flesh and dwelt among us  
We've seen His glory, the One and Only  
Matchless in splendor, righteous and holy

In Him was life and the life was the light of men,  
The Son of God  
And He laid down His life for us all,  
He's the Lamb of God, the Lamb of God.

For He is the light in the darkness,  
Shining light to all who live in the world,  
Calling us as children of the One True God.

Come from the Father, He came to free us  
The Word became flesh and dwelt among us  
We've seen His glory, the One and Only  
Matchless in splendor, righteous and holy

Yeshua, Messiah, Redeemer and King

In the beginning was the Word, and the Word was with God,  
And the Word was God.  
There was nothing that was made before Him,  
He's the Word of God, the Word of God.
