- UV solar weather tested foliage to BS EN ISO 4892-2:2013
- 5 year UK warranty
- Freeze and thaw tested

## AS SIMPLE AS 1, 2, 3

The key component of Vistagreen's unique artificial wall solution is the VistaFolia Panel, which is used to create the stunning vertical gardens.

### 1 VISTAFOLIA PANEL

Each basic pack contains 3 Panels (1xA, 1xB and 1xC).

One pack provides 20.7 sq. ft. / 1.92m of coverage (so if, for example, you have a 8ft x 8ft / 2.4m x 2.4m area, you will require three boxes).

### 2 COLOUR & TEXTURE BOXES

Colour Boxes and Texture Boxes contain individual flowers and foliage that can be slotted and secured into your Panels to customise the look of your green wall.

### 3 FIXINGS

Available in two convenient packs containing either 12 or 120 fixings. Each Panel requires a minimum of 4 fixings.
