

## ANGIYOK (Germany)

The Arctic Experience is a new ice bar in the heart of downtown Berlin. Built from 60 tons of ice can be experienced at 14 degrees Fahrenheit.

### Background

Movinglight-design.ch was the technical integrator and delivered a 15-display video wall with 8K content at 60fps. Roman Hunziker, the Project Manager provides details on the project and talks about why those chose Userful's video wall solution.

**Having a big video wall directly at the entrance is an amazing eye-catcher. Userful had the best price-value ratio on every criteria.**

- Roman Hunziker Project Manager at ANGIYOK
