

# Deployment Questionnaire

Please answer the following questions for every deployment. Attach all answers and pictures to the deal in Hubspot. The more thorough the data collection the smoother the deployment solution review will be.

---

1. What POS system do they currently operate with?
2. Please take a picture of each printer, front and back, that the customer would like to use in their GoTab system. Ensure to have ports visible on the back.
3. How many wireless access points do they have, if any? See deployment form for pictures.
4. Do they have a private or internal WiFi network not used by guests? Please provide the case-sensitive WiFi name and password.
5. How is your cellular service at the site on a scale of 1 (terrible) to 10 (lightning fast)?
6. Are there any ethernet ports with an outbound internet connection available where each station is requested?
7. If the site works with an IT professional, please get name, email, and phone number for contact.
8. What is the Go-Live date goal?
9. Does the customer understand that the installation will be remotely performed?
10. While connected to the location's wifi or ethernet, visit <https://www.speedtest.net/> and perform a speed test. Take a screenshot of the results and attach to the post.
11. What is an estimated square footage?
