GoTab — All-in-One Restaurant POS

The GoTab Restaurant Point-of-Sale (POS) lets operators easily adapt to changing consumer preferences while creating an enhanced and more personal connection with guests. With **no contract or monthly fees**, you can deploy this new class of POS that works seamlessly with contactless orders. It is **cloud-based and easy to customize to your needs,** so you'll have increased "points-of-sale" since every guest with a mobile device is empowered to order and pay.

Share Control
Seamless communication between guest and server initiated tabs.

Speed Table Turns
Guests can pay and leave at their convenience while servers can focus on delivering a great experience.

Run with Confidence
Guests and businesses have the ability to order via their phone using their basic cell service.

Key Features

- No contracts or monthly fees
- Cloud-based, simple, fast, easy set-up
- High-quality, low-cost hardware
- Live support (phone, chat, email)
- Online training

Low-Cost, Durable, In-Stock Hardware

POS Terminal and Kitchen Display

High-definition screen with waterproofing front display and 10-point capacitive touch.

Hand-Held Ordering Tablet

Process physical credit cards at the table. Use with POS Terminal, Hand-held Ordering Tablet or any GoTab-enabled device.

Pay-at-Table Terminal

Powerful terminal that processes physical credit cards. Can be used with POS Terminal Station, a Hand-held Ordering Tablet, or any other GoTab-enabled device.

Use Your Existing Hardware, or Use Ours

GoTab can run on any Internet-connected Android-, iOS-, or Windows-enabled device; there is no special hardware required. We also offer everything you need to run dine-in, online ordering, and delivery, including the tools to accept all forms of payment: contactless, card, and cash payments.
