

Additional Aerospace Terms and Conditions

1. In the event any article sold and delivered hereunder shall be defective in any respect whatsoever; Supplier shall indemnify and save harmless Purchaser from all the loss or the payment of all sums of money (including reasonable attorney's fees) by reason of any accidents, injuries or damages to persons or property that may happen or occur in connection with the use or sale of said article and are contributed to by said defective condition.
2. Certificate of Compliance Required with Shipment.
3. Supplier must comply with RCO Supplier Shipping/Container Requirements.
4. Supplier to comply with the RCO Manufacturing Supplier Requirement manual (SRM) (RCOQ-002) unless otherwise agreed.
5. An AS9102 First Article Inspection report for the current part revision level must be provided with (or prior to) the initial shipment of any part. Approval of this report by RCO is required prior to any subsequent shipments unless a deviation is issued.
