

Bulk Oil Tanks and Pump Options

Need bulk oil storage solutions for your dealership's shop use or a new bulk oil facility? We can do it!

- Mild Steel flat bottom vertical tanks in both single wall and double wall application are our most commonly used option. Tanks can range from smaller bulks tanks (500 gallon) for shops to larger bulk tanks (10,000 gallons) for bulk oil facilities.
- Full offering of polyethylene roto molded tanks available in both single wall and double wall. Large range of sizes to fit the projects specs and dimensions. Meet ASTM standards.
- Dedicated used oil tanks available in clearly marked and recognizable double wall tanks for a clean, contained and safe storage system.

FarmChem has you covered with an assortment of options for weights and measures approved bulk resale pumps.

- Portable Oil Transfer carts (up to 30 gpm)
 - available in 110v with variable frequency drive (VFD) to maximize output gpm
- Stationary Oil pump stands (30 gpm or 50 gpm options)
