How we do it

Kick-off meeting

We define the scope of the process and discuss your needs and areas to address.

Interviews

We involve your key stakeholders: Development, Infrastructure, Security and Finance into the audit phase to get as a comprehensive view as possible.

Setup review

We review your technical setup, organizational and operational processes in period of 1 to 4 days.

Deliverables

We present our findings and our plan to your team and make sure they understand it perfectly. The rest of the process is up to you (or us).

What you get

Assessment report on all 5 disciplines

We base our report on these 5 disciplines: **Cost Optimization, Security, IAM, Infrastructure Standards and Automation & CI.**

Management report with key findings

You get an easy-to-understand report that summarizes the audit run through your different business departments.

Governance Remediation Plan

You get an actionable program to address the key findings and meet your objectives.
