

# FACT SHEET: OZONE LAUNDRY

## What you need to know

### Ozone laundry operations

Ozone laundry is a process where an ozone generator injects ozone (O<sub>3</sub>) into the water supply of the existing washer, significantly reducing hot water and chemical use. Ozone laundry systems work 3,000 times faster to destroy bacteria than dissolved chlorine bleach.

### Upgrading makes a difference

Upgrading reduces energy use up to 45 percent. On top of reducing natural gas and electricity consumption, you'll also lower your water and sewer costs. Ozone can reduce usage by up to two rinse cycles.

### Speed up the process

Employees can boost productivity due to the shorter cycle times. Consumers report that clothes and linen both last longer and feel softer.

## What you can do

### Take advantage of rebates

Peoples Gas and North Shore Gas offer rebates based on the size of the washer measured in pounds of capacity. View the rebate applications available on [PeoplesGasDelivery.com/Savings](https://PeoplesGasDelivery.com/Savings) or [NorthShoreGasDelivery.com/Savings](https://NorthShoreGasDelivery.com/Savings) for more information.

This rebate only applies to facilities with on-premise laundry operations, including hotels/motels, fitness and recreational sports centers, healthcare (excluding hospitals) and assisted living facilities. Hotels with more than 250 rooms should apply to the custom rebate program. Contact the program team to get started.

## Breaking down the benefits

Check out the top three reasons your business should upgrade to ozone laundry systems.

1. Reduce chemical cost, energy costs and water consumption
2. Extend the lifespan of clothing and other laundered items
3. Shorter wash cycles means more productivity and profit

**For more information or to take advantage of available rebates, please call us at 855-849-8928.**

Terms and conditions apply. Program is subject to change.  
Actual savings will vary by customer's energy usage and rate.  
These programs are funded by Peoples Gas and North Shore Gas customers in compliance with Illinois law.
