

NEED **DUPLICATE** **BARCODES** ON YOUR **AMAZON PACKAGING?**

When you repackage items for fulfillment by Amazon (FBA), you frequently need to duplicate the UPC code (barcode) label so it's visible on the new package.

Symbology simplifies your labeling task. With our Barcode Genie barcode duplicator solutions, just scan or type in the existing barcode, output the label, and apply it to the bag, box, or shipment to ensure compliance. There's no need for a computer, because the scanner is connected to the printer, and comes pre-loaded with the software. It's ready to use, right out of the box.

EASY

Scan and or type the barcode information, then print.

EFFICIENT

Use the mobile or fixed option to print on demand, when and where you need your barcode label.

COMPACT

Space-saving printer fits anywhere.

VERSATILE

Enter the barcode number with the KDU Plus when the UPC code can't be scanned.
